

Hospital Service S.p.A.

To whom it may concern

Dear Sirs,

We make reference to the Device for Bone Marrow Biopsy Needle, sold since many years in the UK under the registered Trademark "TRAPSYSTEM" (the TrapSystem Product).

In this connection, we would like to point out that the TrapSystem Product has been manufactured, until early 2001, by a licensee, namely the US Company MD Tech Medical Device Technologies Inc. (MD Tech). Under the same license, MD Tech sold the TrapSystem Product in the UK, until early 2001, through its distributor Manatech.

Since the license granted to MD Tech expired in 2001, the TrapSystem Product has been, and is, manufactured by our Company and sold in the UK by our distributor UK BIOPSY.

H.S. Hospital Service S.p.A.
